let allows you to declare variables that are limited to the scope of a block statement, or expression on which it is used, unlike the var keyword, which declares a variable globally, or locally to an entire function regardless of block scope. The other difference between var and let is that the latter is initialized to a value only when a parser evaluates it (see below).

Children of God ... 6 No one who remains in Him keeps on sinning. No one who continues to sin has seen Him or known Him. 7 Little children, let no one deceive you: The one who practices righteousness is righteous, just as Christ is righteous. 8 The one who practices sin is of the devil, because the devil has been sinning from the very start. This is why the Son of God was revealed, to destroy ...

In the Sermon on the Mount, Jesus said, "But when you give to the needy, do not let your left hand know what your right hand is doing, so that your giving may be in secret.Then your Father, who sees what is done in secret, will reward you" (Matthew 6:3-4). Jesus' command to give in such a way that one hand is unaware of what the other hand is doing is obviously not to be taken literally.
