Sometimes, though, I just really want to watch baseball. Some of the insecure moves Commissioner Rob Manfred has pioneered over the last few years — a pitching "clock," runners on second to start extra innings, seven-inning doubleheader games — are intended to make baseball quicker and more palatable to the TikTok generation.

1. Locke on Persons and Personal Identity: The Basics. Locke's most thorough discussion of the persistence (or diachronic identity) of persons can be found in Book 2, Chapter 27 of the Essay ("Of Identity and Diversity"), though Locke anticipates this discussion as early as Book 1, Chapter 4, Section 5, and Locke refers to persons in other texts, including the Second Treatise of Government.

Ray casting is the methodological basis for 3-D CAD/CAM solid modeling and image rendering. It is essentially the same as ray tracing for computer graphics where virtual light rays are "cast" or "traced" on their path from the focal point of a camera through each pixel in the camera sensor to determine what is visible along the ray in the 3-D scene. . The term "Ray Casting" was introduced by ...

Music has always had the incredible ability to take me mentally back to a particular place and time in my life. Most of the time, that past place and time is a good memory, a point in my life where I was happy with myself and with the world around me. Often, by simply playing one of those songs that takes me back there, I feel better.

Locke is saying that the substance that thinks in us could be any one of the eight combinations of possibilities, that is either simple and immaterial, simple and material and so on, and still produce the full range of conscious phenomena that Locke enumerates. There have been a number of attempts to explain what Locke means by 'consciousness.'
