Anthropology And Tourism

Anthropology has expanded and changed radically by including within its purview the study of tourism. In spite of the ubiquitous nature of traveling in anthropology, tourism and travel became subjects worthy of discussion in anthropology relatively recently, in Europe in the 1930s and in the United States in the 1960s (see Introductory Works). Two main reasons explain this paucity of attention.

Tourism - Anthropology - Oxford Bibliographies

Abstract: Tourism is a new phenomenon in world history, but today more people travel long distances for this purpose than for any other. This entry traces some main contributions anthropologists have made to understanding tourism interactions since starting to study them in the 1970s. One common theme of much of this work has been that tourism often involves the extension of tourists' home-society ideas and systems into times and spaces of the trip, even though the activity is conceived of ...

Tourism | Cambridge Encyclopedia of Anthropology

Anthropological interest in tourism, which began as a serendipitous spin-off from other studies, has been manifest only since the 1970s. Today, however, the anthropological study of tourism is established and there are hopeful signs for future development in both basic and applied research.

5. Anthropology of Tourism. Anthropology of tourism is concerned with the social and cultural nature of tourism and the behaviour of tourists. The anthropology of tourism offers an insight into the socio-cultural dimensions of tourism, such as the behaviours of cultures and soci- eties. International tourists in the second half of the twentieth century started to visit those locations in which many anthropologists had carried out their fieldwork.

Anthropology of Tourism - SAGE Publications Inc

The anthropology of tourism as a specialist area has seen important growth in recent years in Britain and elsewhere. As more communities become dependent on added income brought in from tourism, and tourists become increasingly aware of the ethical, environmental and political dimensions of being a tourist, new demands are being placed on the industry.

Abstract. This paper considers some of the issues in the anthropology of modern tourism, emphasizing comparative and dynamic perspectives. Building on the works of MacCannell, V. Turner, and E. Cohen, the relations of tourism to ritual, play, and pilgrimage are considered. Two kinds of tourism are identified: periodic or annual vacations, paralleling cyclical rites of intensification, and arduous, self-testing tourism, paralleling rites of passage.

The explosive dynamic of tourism highlights the requirements of the interdisciplinary study between tourism and economics, sociology and environment sciences. A relatively late newcomer to this is the relationship between anthropology and tourism.

NEW TRENDS IN THE ANTHROPOLOGY OF TOURISM

The anthropology of tourism is a relatively recent topic area within both academic and applied anthropology, having gotten its start in the 1960s and 1970s. Valene Smith's edited work Hosts and Guests: The Anthropology of Tourism (1977) marks the beginning of the field as a serious academic concern. Since then it has grown rapidly.
