Introduction to Economic Growth book by Charles I. Jones

Charles I. Jones, Dietrich Vollrath. The long-awaited revision of the text that brought growth theory to the classroom. Introduction to Economic Growth is the only text to synthesize the journal literature in a way that makes this important field accessible to undergraduates. Charles I. Jones and new co-author Dietrich Vollrath have updated and revised the text to reflect recent advances in Economic Growth Theory in clear, direct language.

Introduction to Economic Growth | Charles I. Jones ...

Introduction to Economic Growth. Charles I. Jones. Perhaps the hottest field in macroeconomics, economic growth is fascinating to theorists and critically important to policy makers. Charles Jones, a rising star in the field, explains the inroads economists have made in understanding how economies grow. The story begins with empirical evidence: how rich are the rich countries, how poor are the poor, and how fast do the rich and poor countries grow?

Introduction to Economic Growth - Principles of Economics

Charles I. (Chad) Jones is an economist noted for his research on long-run economic growth. In particular, he has examined theoretically and empirically the fundamental sources of growth in incomes over time and the reasons underlying the enormous differences in standards of living across countries. In recent years, he has used his expertise in macroeconomic methods to study the economic causes behind the rise in health spending and top income inequality.
