Global Safety Management® (GSM) is dedicated to making the workplace and the environment safer by simplifying compliance and chemical information documentation. Using our TotalSDS software, companies author, translate and manage SDS at a fraction of the time and cost of other systems.

SDS Management & Compliance - Global Safety Management®

The whole software design process has to be formally managed long before the first line of code is written. Software engineers produce lengthy design documents using computer-aided software engineering tools. The software engineer then converts the design documents into design specification documents, which are used to design code.
