own right and worthy of inclusion in Umarex's Legends line. The PPK/S was the first BB pistol Umarex made, and the first, too, that featured a blowback slide that replicates the function of the centerfire originals. Why did they go for the PPK/S and not a PPK?

One of the most popular WALTHER pistols in the Umarex range has been improved: The Walther PPK/S with a metal slide now has a new piercing mechanism for the CO<sub>2</sub> cartridge – it's

invisible when the gun is seen in profile. The required Allen key is part of the grip plate and is therefore always at hand. The heavy slide generates a noticeable blowback effect.

about using lead balls in this gun,i found the best BBs were umarex steel BBs,i normally shoot mine over twenty five feet and find its not bad at that range,as already said it does seem to be a bit of a hit or miss with these replicas.
