Easier UVM is a set of vendor-neutral coding guidelines accompanied by a code generator that creates UVM code compliant to those guidelines. Easier UVM was created to help individuals and project teams learn and then become productive with UVM as quickly as possible and to reduce the burden of supporting UVM code within a company or organization.

The Easier UVM Coding Guidelines

2) to compile with Modelsim use the makefile.questa . I would do this copy makefile.questa as Makefile . Then do gmake and it would be fine . 3)If you wanted to see the compile command do this . gmake -n >run.csh . chmod 775 run.csh./run.csh [We are just trying to make a run script without any makefiles] Hope this works!
